

12th Hong Kong Medical Forum (May, 5-6, 2007)

The 12th Hong Kong Medical Forum was an annual event held by The Department of Medicine, Queen Mary Hospital., The University of HK. It focuses on latest interest topics and product updates in medical field. The Forum took place in the Hong Kong Convention & Exhibition Centre. This event attracted 1000 medical practitioners, nurses and allied health professionals.

PBK-2C was exhibited at the exhibition hall and on-site demonstrations also held. A double-side print advertisement introducing PBK-2C's unique benefits and application was placed in the programme book.

Here are some photos taken during the event.

Let's Discuss on the benefit and the use of the PBK-2C

1st Right: Dr. Choi Kin , President of the Hong Kong Medical Council

2nd Left : Dr. Louis Shih, Vice President of the Hong Kong Medical Council

The new concept of Electro Therapy PBK-2C, which can stimulate the release of vascular endothelial growth factor (VEGF) from lining of blood vessels, is introduced in this Forum to both Hong Kong public and private practitioners.
