

The 4th Hong Kong International Orthopaedic Forum

(21-22 April 2007)

The The 4th Hong Kong International Orthopaedic Forum was held by The Department of Orthopaedics and Traumatology, Queen Mary Hospital, The University of Hong Kong. The Forum this year focuses on musculoskeletal problems in skeletally immature including those of the spine, the upper limbs and the lower limbs. World renowned speakers from China, France, Saudi Arabia and The United States were invited to this year's Forum.

The Forum took place in Cheung Kung Hai Conference Center, William Mong Block, Faculty of Medicine Building, Queen Mary Hospital.. This event attracted 500 public and private orthopaedic doctors.

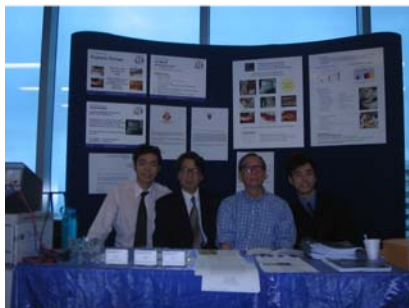

PBK-2C was exhibited at the exhibition hall and on-site demonstrations also held. An advertisement introducing PBK-2C's unique benefits and applications was placed in the programme book.

Here are some photos taken during the event.
